Turf Replacement Rebate Program

Save money by saving water!

SCWA is offering cash rebates to water customers who replace thirsty turf grass with drip-irrigated, low-water-use plants or permeable hardscapes. Both residents and businesses can benefit through this program.

Replace that lawn with a healthy garden that works for you. By using Bay-Friendly practices, you can conserve water, natural resources and prevent pollution. And with sheet mulching, you can plant directly on top of the lawn, saving time and money.

Find beautiful water-wise alternatives to replace your thirsty lawn. For more information or to schedule a pre-inspection, call 707.455.1113 or email solanocash4grass@scwa2.com.

HIGH-EFFICIENCY TOILET REBATE

Program Overview

REPLACE YOUR TOILET AND RECEIVE UP TO \$100

The Department of Water Resources (DWR) has a rebate program that provides rebates for replacing toilets at California single-family residences to support the State's drought response.

The \$6 million program budget is expected to support the replacement of 60,000 toilets throughout the state. Up to \$100 will be rebated for purchase and installation of one qualified high-efficiency toilet (1.28 gallons per flush or less) per household that replaces a less-efficient toilet (using more than 1.6 gallons per flush).

HOW TO GET YOUR TOILET REBATE

The rebate process is simple. Here is how the process works:

1. Check the website to determine if funds are still available for the program.
2. Identify a qualified US Environmental Protection Agency WaterSense certified high-efficiency toilet (1.28 gallons per flush or less).
3. Purchase a toilet from the qualifying models list.
4. Complete the on-line toilet rebate application.
5. Receive your rebate approval notice.
6. Receive your rebate check!
