## IMPORTANT CUSTOMER NOTICE

### End of 2019 Irrigation Season

Dear Agricultural Water Customers:

This notice is being provided to Solano Irrigation District (District) Agricultural Water Users to inform you of the Board's decision to end the 2019 irrigation season on October 31, 2019.

Please note, all irrigation events will need to conclude by **October 31, 2019 at 5:30 p.m.**, unless otherwise arranged in advance.

We truly hope the 2019 irrigation season has been favorable and that our service met or exceeded your expectations. Providing excellent service is a top priority for the District and we are committed to implementing initiatives to achieve that goal. We are still working on enhancing the interactivity of the District's website ([www.sidwater.org](http://www.sidwater.org)) to give customers better access to account information and water use data. Be sure to visit the website and sign up to receive notifications. In addition, if there are ways we can improve our service to you, please share your thoughts with us.

Should you have any questions or need information regarding the end of the 2019 irrigation season, please contact SID Interim Ag. Operations Supervisor, Stuart Chaney. Mr. Chaney can be reached by telephone at **(707) 455-4031** or by email at [schaney@sidwater.org](mailto:schaney@sidwater.org).

Thank you for the opportunity to provide for your agricultural irrigation needs.

Sincerely,

*Solano Irrigation District*

Matthew Hobbs  
Water & Power Operations Manager
