Important Customer Notice: Start of 2023 Irrigation Season

Dear Agricultural Water Customers:

On Tuesday, February 21, 2023, the District's Board of Directors approved the start of the 2023 irrigation season for **March 31, 2023**. The Board also approved the 2023 Water Budget and an allocation of **3.5 acre-feet per acre** for the 2023 season. Based on current weather conditions the District may, with Board approval, delay the start of the irrigations season 1 to 2 weeks depending on precipitation through the end of March. Should the start of irrigation season be delayed, a revised notice will be sent out to all customers with the new date.

As of now, the District intends to make water deliveries on the majority of the systems by Friday, March 31. In a few specific cases, water deliveries will not be available due to construction and repair activities nearing completion. As these systems become available, they will be charged and made ready for deliveries.

The District urges customers to contact your assigned Watertender to obtain specific information regarding your system's status and when you are ready to place your water order(s). The 2023 Watertender Division Assignment and contact information is on the back of this notice.

If you haven't already done so, please be sure to get your 2023 crop declaration forms in as soon as possible to ensure there are no delays in processing your water orders.

Should you have any questions or need information regarding the start of the 2023 irrigation season, please contact SID Agricultural Operations Supervisor, Stuart Chaney. Mr. Chaney can be reached by telephone at **(707) 455-4031** or by email at schaney@sidwater.org.

Sincerely,

Solano Irrigation District

Matthew Hobbs
Water & Power Operations Manager
